

Permitting

- ❏ The developer and the consultant should be gathering information and beginning the permitting process by this point.
- ❏ Permitting requirements vary from project to project, but a project may require permits from the following outside agencies:
 - IEPA
 - IDOT
 - USACE
 - Will County
 - Kendall County
 - Other (Misc)
- ❏ Some permits require a longer approval process than others and may need to be initiated earlier in the development process to avoid delays or an unexpected issue that may disrupt the project.
- ❏ All permits must be fully executed before they are sent to the City of Joliet for signature.
