

Plan Approval

- When all comments and concerns are addressed, a Final Approval letter is issued. Contingent approvals or partial approvals may be granted based on projects that may qualify.
- Permits are typically executed by the City at this time. Signed permits can be picked up at Joliet City Hall or they may be shipped to the developer or the engineer if a Fed Ex account number is provided.
- Approvals are always accompanied by a final
- submission of documents in hard copy and CAD/GIS formats. Joliet must obtain those final versions of plans before issuing a final approval letter.
