

Pre-Plan Meeting

Prior to development of plans, the City Public Utilities staff directs developers to the Design Manual, Special Provisions, Standard Details, Approved Material List, Plan Review Guide and Plan Submittal checklist on the City Website at

Joliet.gov/PUDevelopment

The developers may provide a preliminary plan prior to the final plans to be considered during the Plan Commission Approval process. Preliminary plans may be submitted directly to the Utilities Department at PUDevelopment@joliet.gov

Each project is unique and may require a developer meeting to discuss which elements of the checklist are critical and which elements may not apply.

The project may require approval through the plan commission before full plans are submitted for review.
