

Introducing

The City of Joliet is striving to provide a more convenient way to provide bulk water to water haulers and contractors. We have three new Water Stations, located at convenient locations throughout the City, open 24-hours.

You can find the City of Joliet Bulk Water Stations at the following addresses:

- 2001 N Arbeiter Road
- 1203 Cedarwood Drive
- 818 E Cass Street

All Bulk Water information is available on the City of Joliet website at:

Joliet.Gov/Utilities

JOLIET

Bulk Water Stations

A new, more convenient, and less expensive way to obtain bulk water, without the need for meter rental.

City of Joliet Department of Public Utilities
Joliet.gov/Utilities

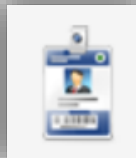

Getting Started

Flowpoint Cloud is an online application that works in combination with **Flowpoint** water dispensing stations. **Flowpoint Cloud** makes it easy for you to buy water, manage your trucks, view your account, and run reports. It can be accessed from any computer, with an internet connection, and a web browser.

The **Joliet Bulk Water Station Flowpoint Cloud** web address is: <https://jolietil.azurewebsites.net>

Logging In:

Creating an account is easy! Simply log in, hit the apply for account button, and fill out the account registration information. You will receive an email, immediately after submitting an application, and then a follow up email will be sent within 7 days.

Once the account is approved, you will receive an email with a username and temporary password.

Once you receive your login information, you may log-in to your user account and begin to **set up trucks.**

You will be invoiced by the City of Joliet on a monthly basis.

Setting Up Trucks

Before you can buy water, you must enter a truck record in Flowpoint Cloud. Each truck needs an access number and PIN to buy water at the station.

Adding a Truck

Add a truck record in Flowpoint Cloud for each truck you own:

Point —> Trucks

Click —> Truck Management

Click —> New

Follow the guidelines below to enter truck details:

Field	Description
Access number*	Automatically assigned a four digit number. Do not change!
PIN*	(Personal Identification Number) Must be four digits. Drivers will remember the PIN if they choose it.
Truck Name *	Truck number, or unique identifier
Description	Could include, truck make and model, or other details you want to track.
Driver	Drivers first and last name.
Plate #	Truck license plate number.
Volume	Capacity of the truck in U.S. gallons.
This Truck is Active	Remove the check mark to prevent a truck from using the station.

* indicates a required field.

Bulk Water Station Rates:

Correspond with the City of Joliet Non-Resident Commercial rates as updated annually on 11/01.

Save deposits and other fees associated with renting hydrant meters!!

Using the Access Terminal

Standard 2" Female Camlock

To buy water at a station, the driver will use an access terminal and fill hose. Drivers enter their access number and PIN using an access terminal like the one shown below.

Steps drivers follow to buy water:

1. Connect the water fill hose to the tank
2. Enter your four digit access number, press 'ENTER'
3. Enter your four digit PIN, press 'ENTER'
4. Enter the volume of water wanted, press 'ENTER'
5. Confirm the hose is connected
6. Press '**START**' to start water flow
 - ◆ Volume of water dispensing is displayed on the screen
 - ◆ The water will stop automatically once the requested volume is reached

For more information on Truck Management, Reporting, Usernames & Passwords, etc., you may refer to the **Flowpoint Cloud Customer Manual** on the City website at: Joliet.gov/Flowpoint
