TO: James V. Capparelli, City Manager

FROM: William Evans, Chief of Police

DEPARTMENT: Police

SUBJECT:
BlueTeam NextGen Software

PURPOSE:
The purpose for integrating BlueTeam with IAPro is to streamline vital reports such as defensive action reports, taser deployments, and firearm discharges. BlueTeam works in conjunction with IAPro and will lay the groundwork for EIPro (early intervention). BlueTeam's EI console is an advanced early intervention tool designed for frontline supervisors to identify performance issues in "real-time." The first quarter is to establish the purchase of BlueTeam and discuss planning the implementation.

FACTS:
    a. Internal Affairs currently uses IAPro software, BlueTeam will enhance its current capabilities. BlueTeam will support frontline documentation, supervisory oversight, and organizational accountability.

    b. Implementation of BlueTeam will eliminate the need for a civilian to manually enter data and allow "real-time" documentation entered by officers on the street.

    c. BlueTeam's EIPro is an early intervention tool that has become accepted as a "best practice" throughout public safety and is used by similar-sized agencies.

    d. Public Safety Committee approved the purchase of IA Pro BlueTeam during their March 1st 2022 meeting.

    e. IA Pro BlueTeam will go before the City Council for approval on March 15th, 2022.
