

# Welcome

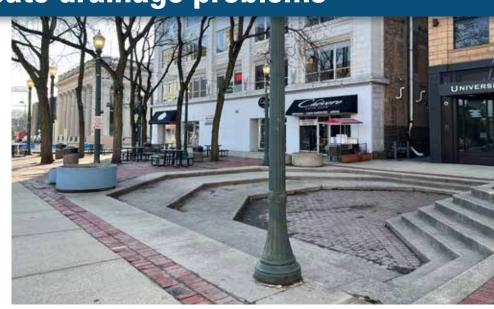

## **Existing Site**

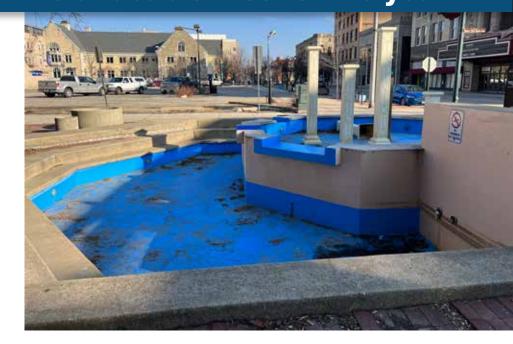

#### Secluded spaces feel unsafe

#### Level changes are inaccessible and create drainage problems

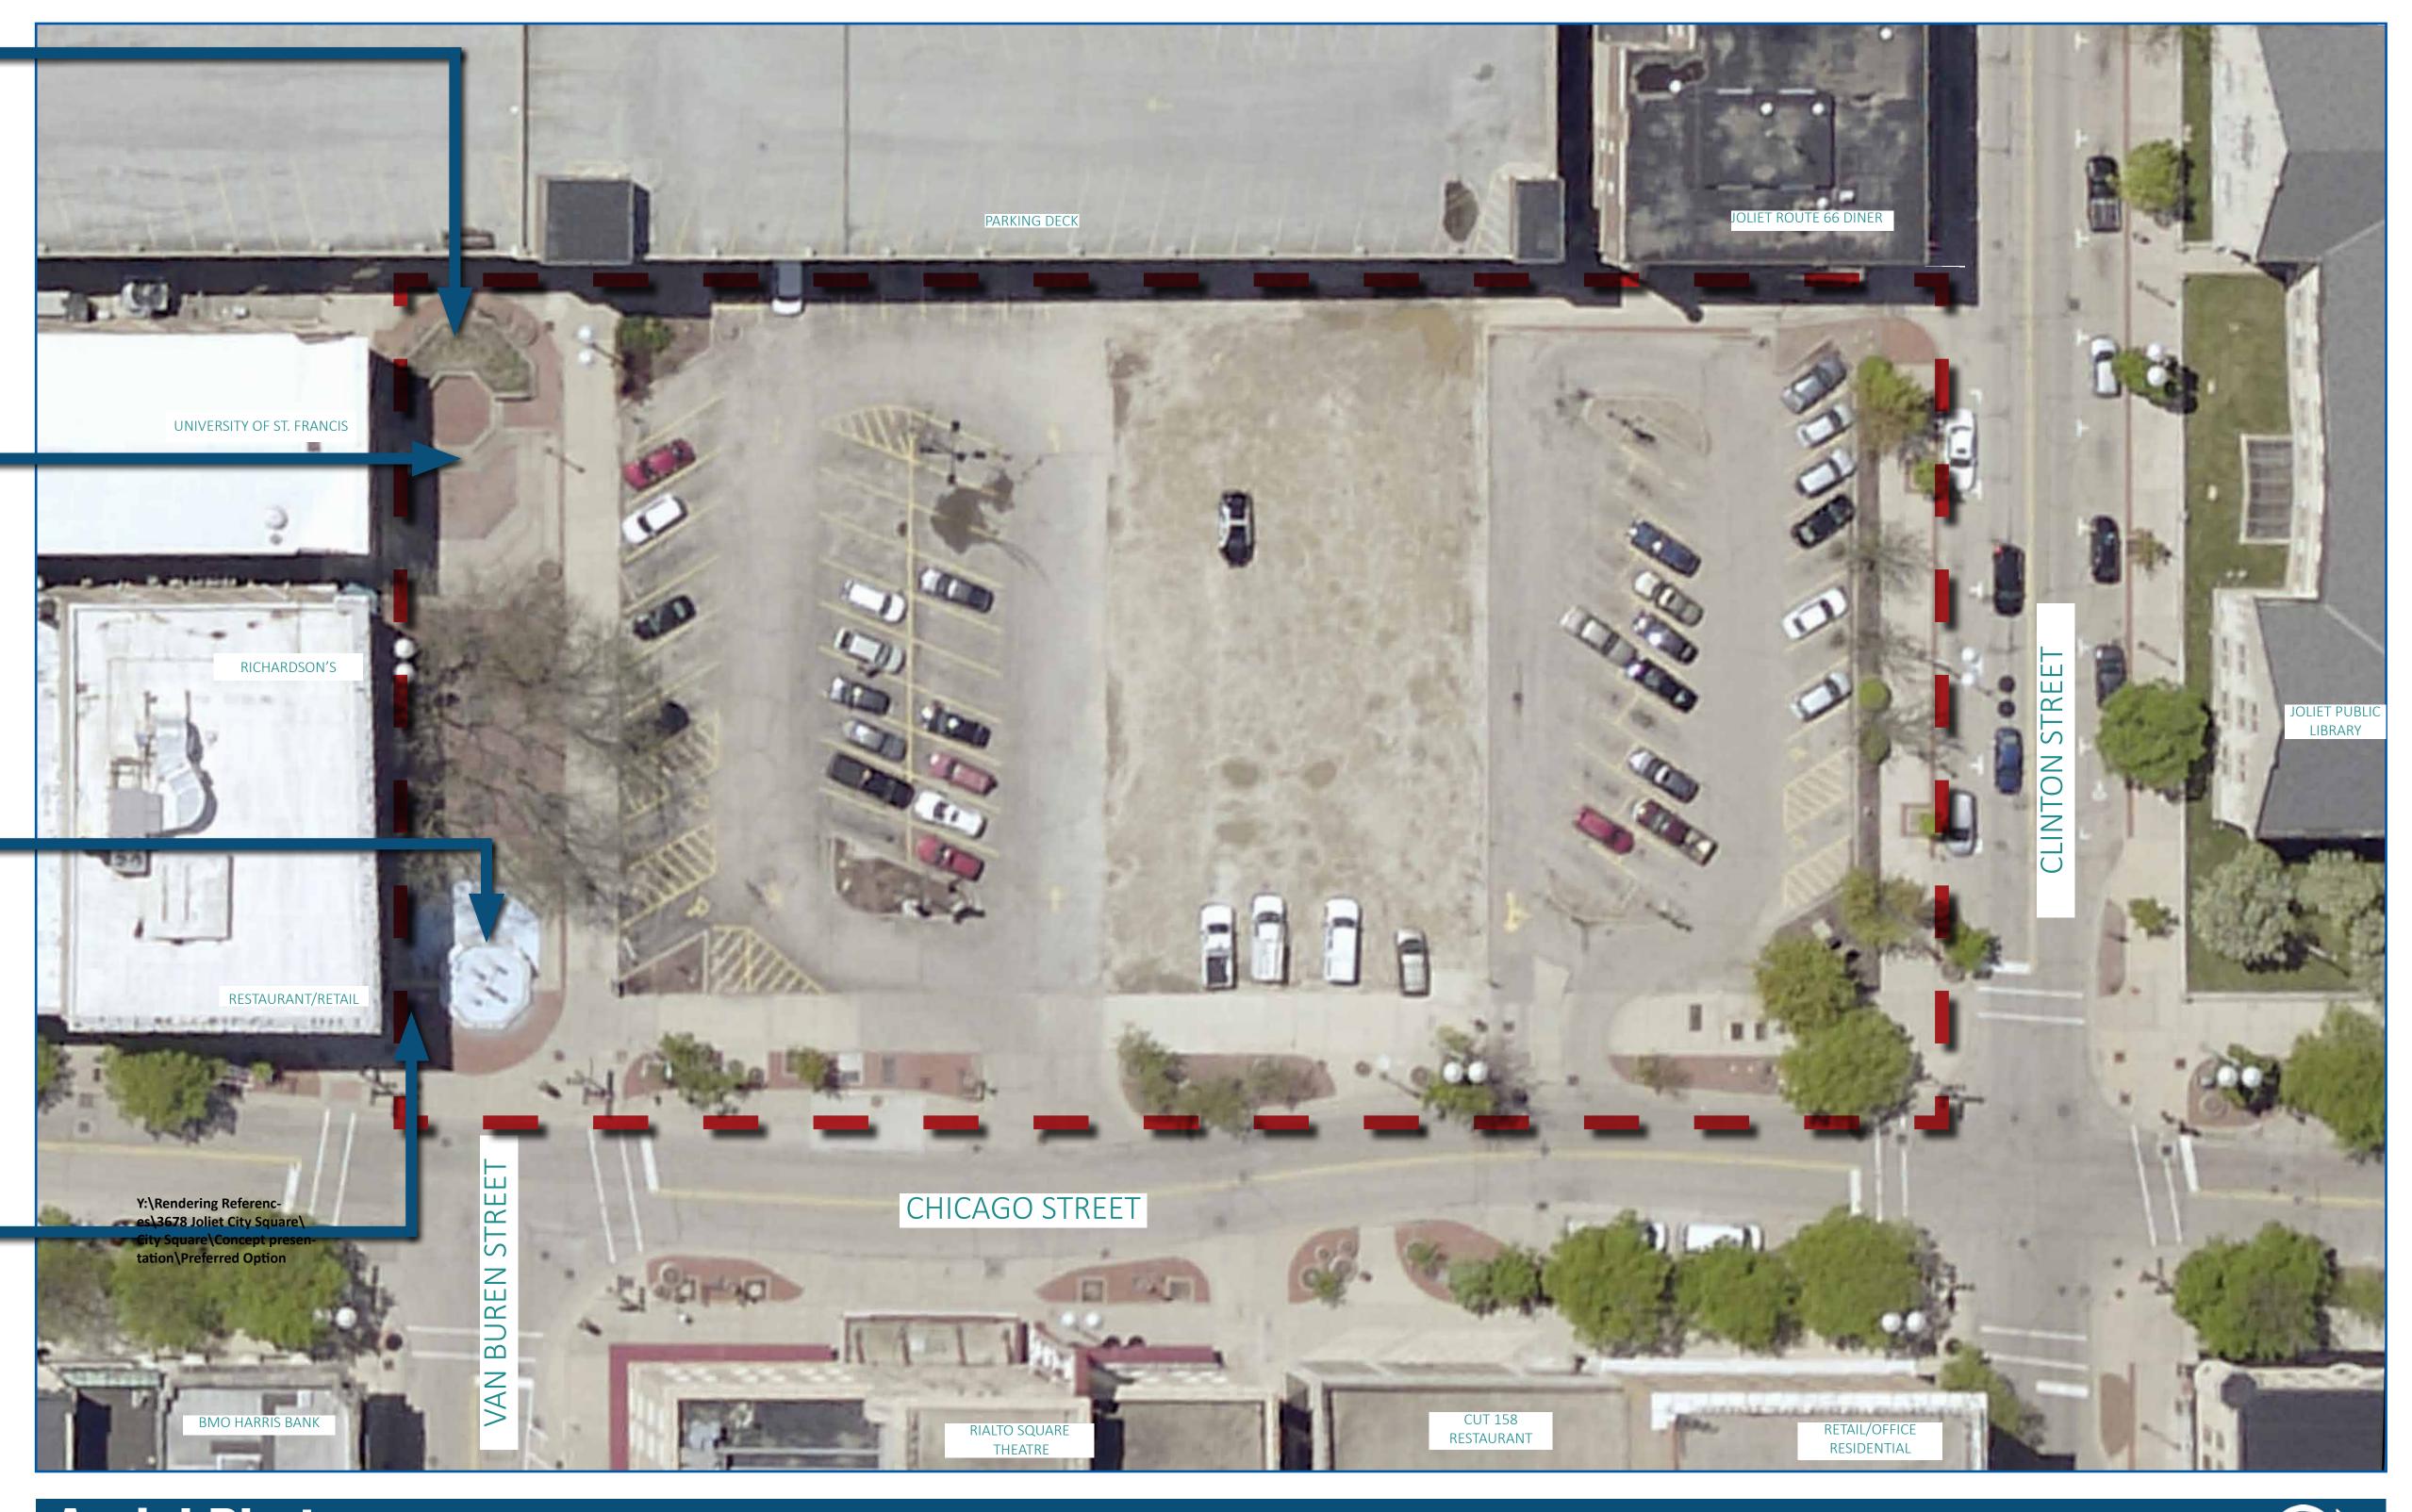

Fountain is unusable most of the year

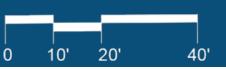

Storefront visibility is blocked

**Aerial Photo** 

*CIVILTECH* 

#### » 2014-2015: Downtown Joliet Plan

This plan identified the creation of a larger gathering space (larger than the existing Van Buren Street Plaza) as a priority action.

#### » 2017-2018: Property Acquisition

The City prioritized the acquisition of the parcels on this block to ensure the future actualization of the much needed public space. The City acquired the last remaining property, the State's Attorney's Building at 105 N. Chicago Street in 2018. The City invested \$185,963 to have the State's Attorney's Building demolished and prepared for the future Square.

#### » 2017-2018: Chicago Street Corridor Plan

The City of Joliet developed a high-level conceptual design for a new urban square across from the Rialto Square Theater and concepts for a redesigned Chicago Street. The concepts showcased in this plan were developed over a 14-month period with many working meetings with City staff and stakeholders, Advisory Committee meetings, and a public forum.

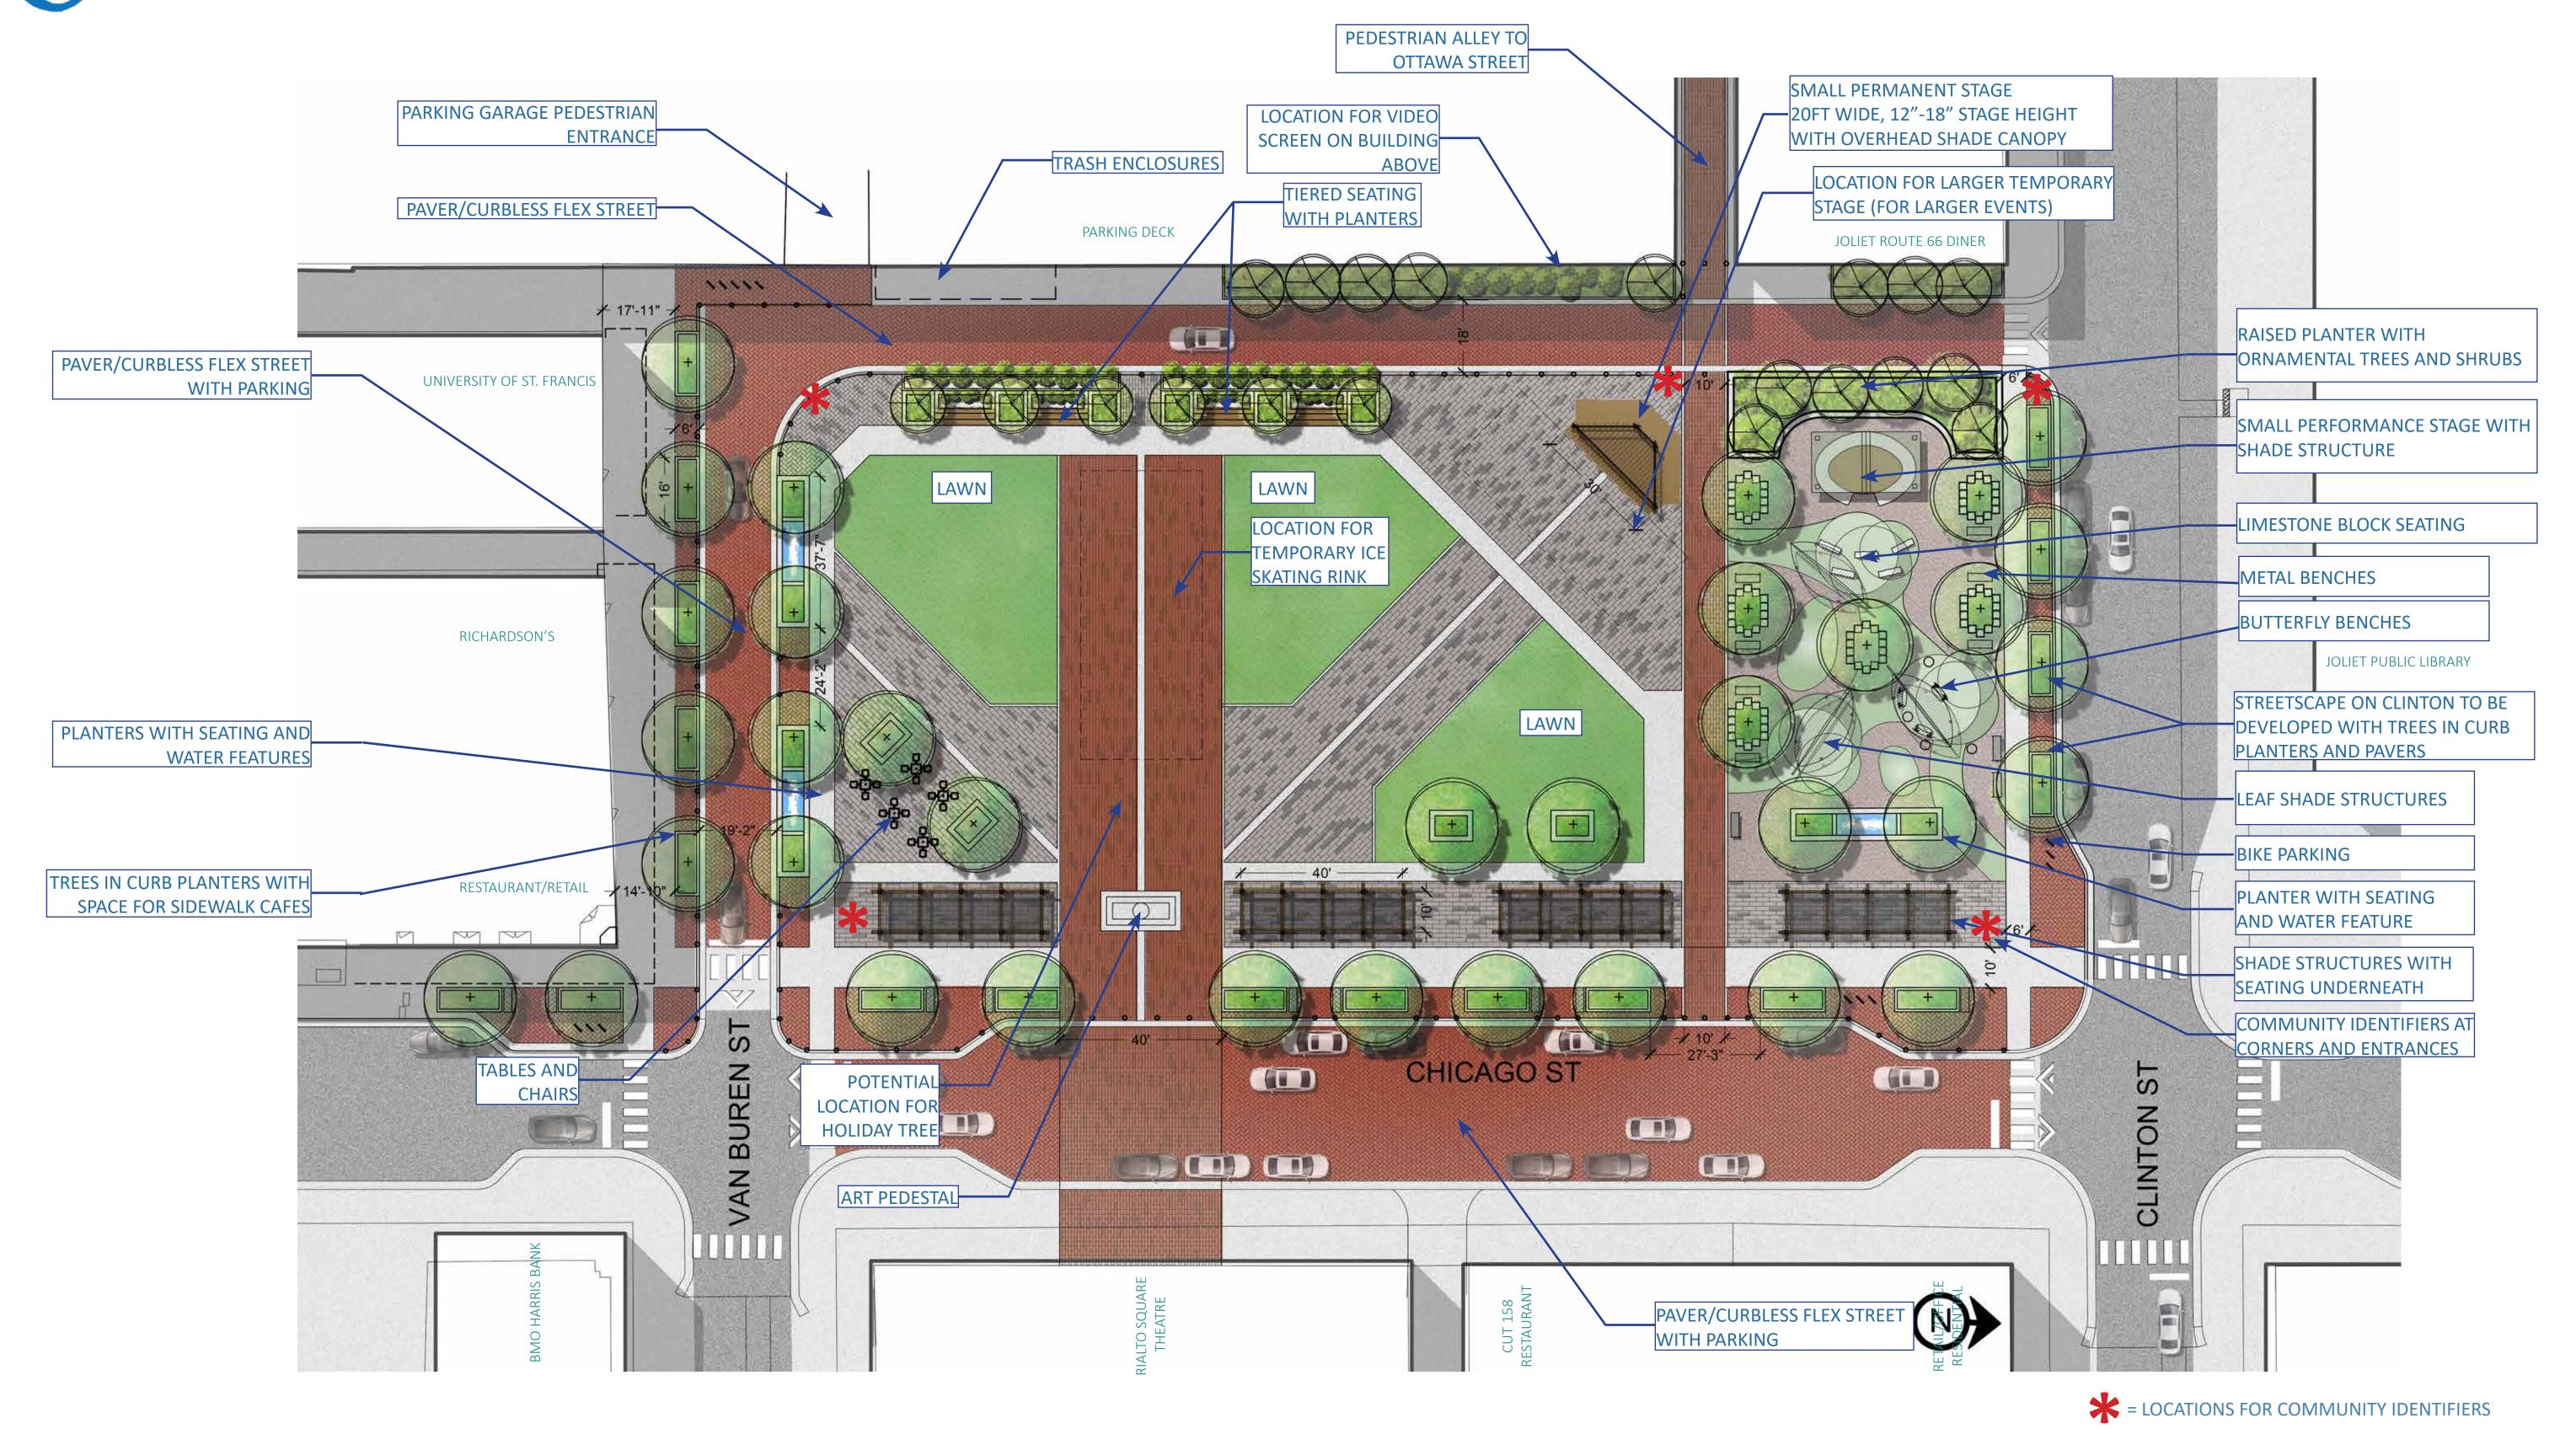

#### » 2022-2023: Joliet City Square Design Project

The City of Joliet is refining concept designs and then developing construction plans for the City Square Project.

## Design Concept

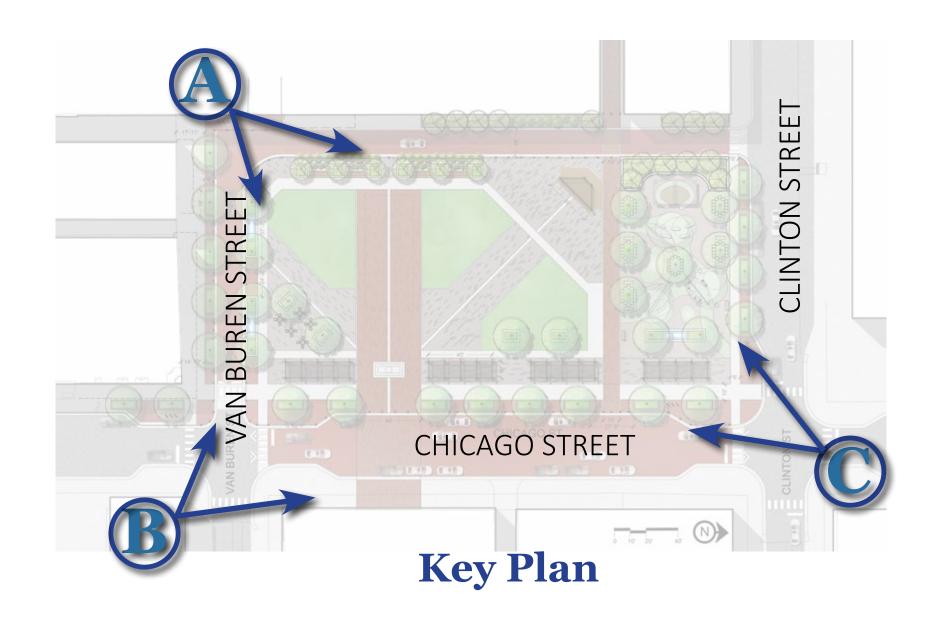

## Design Concept

View A: sketch looking Northeast

View B: sketch looking Northwest

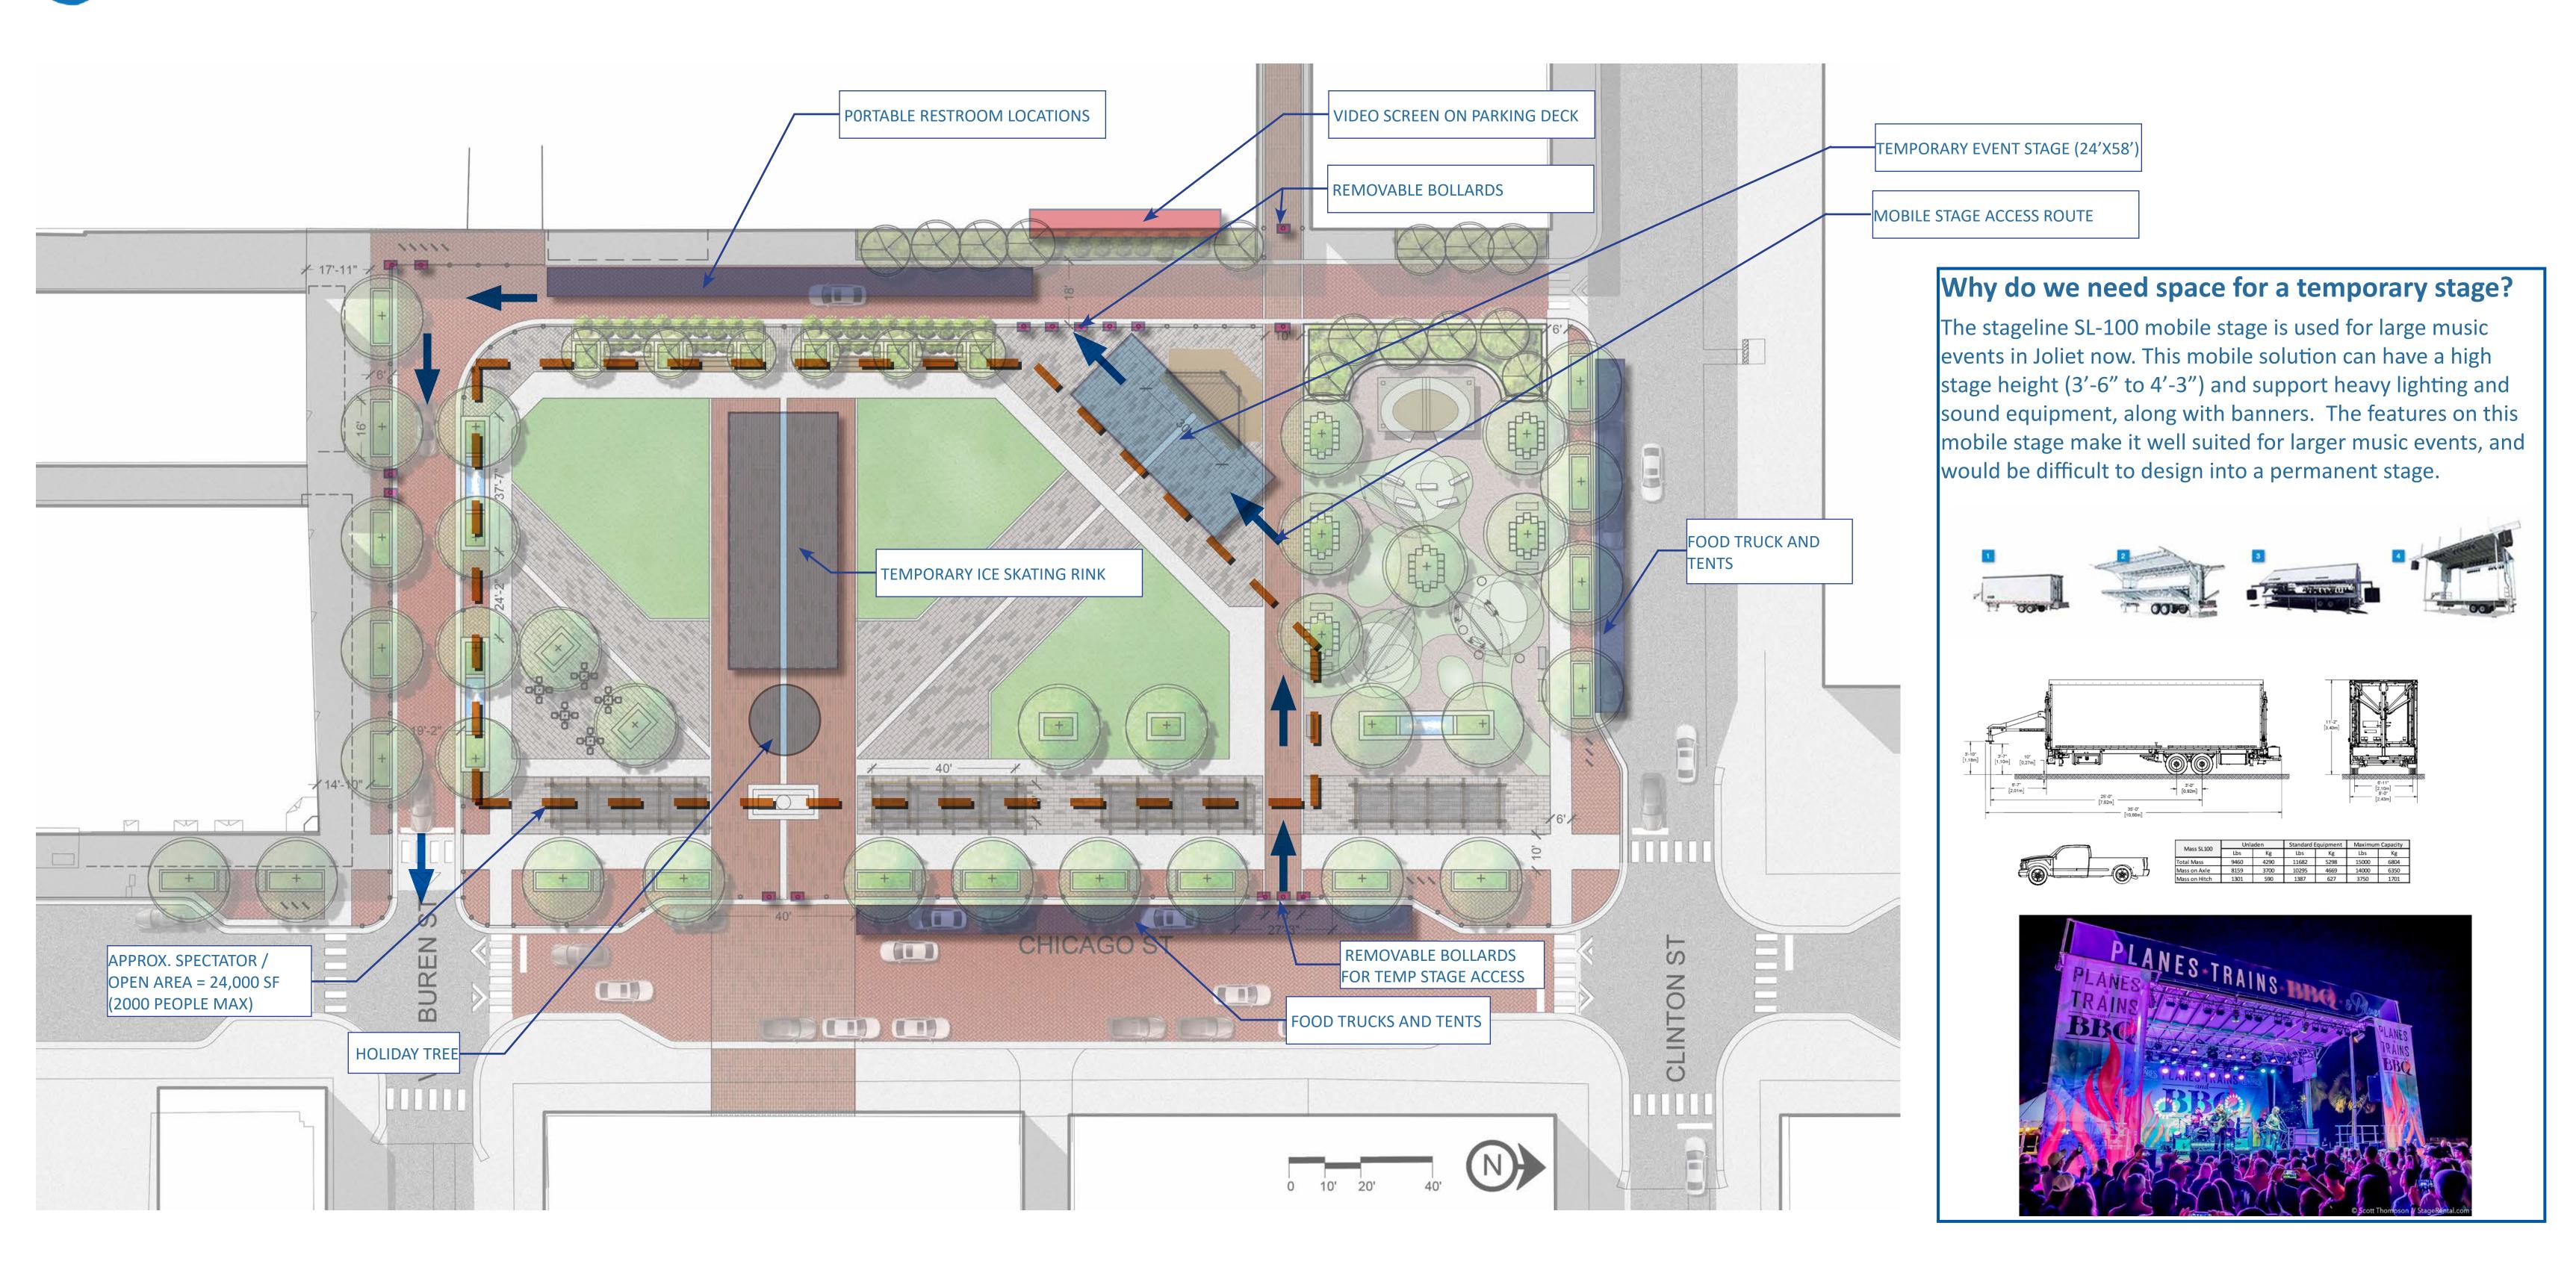

View C: sketch looking Southwest

## Design Concept - Potential Event Use

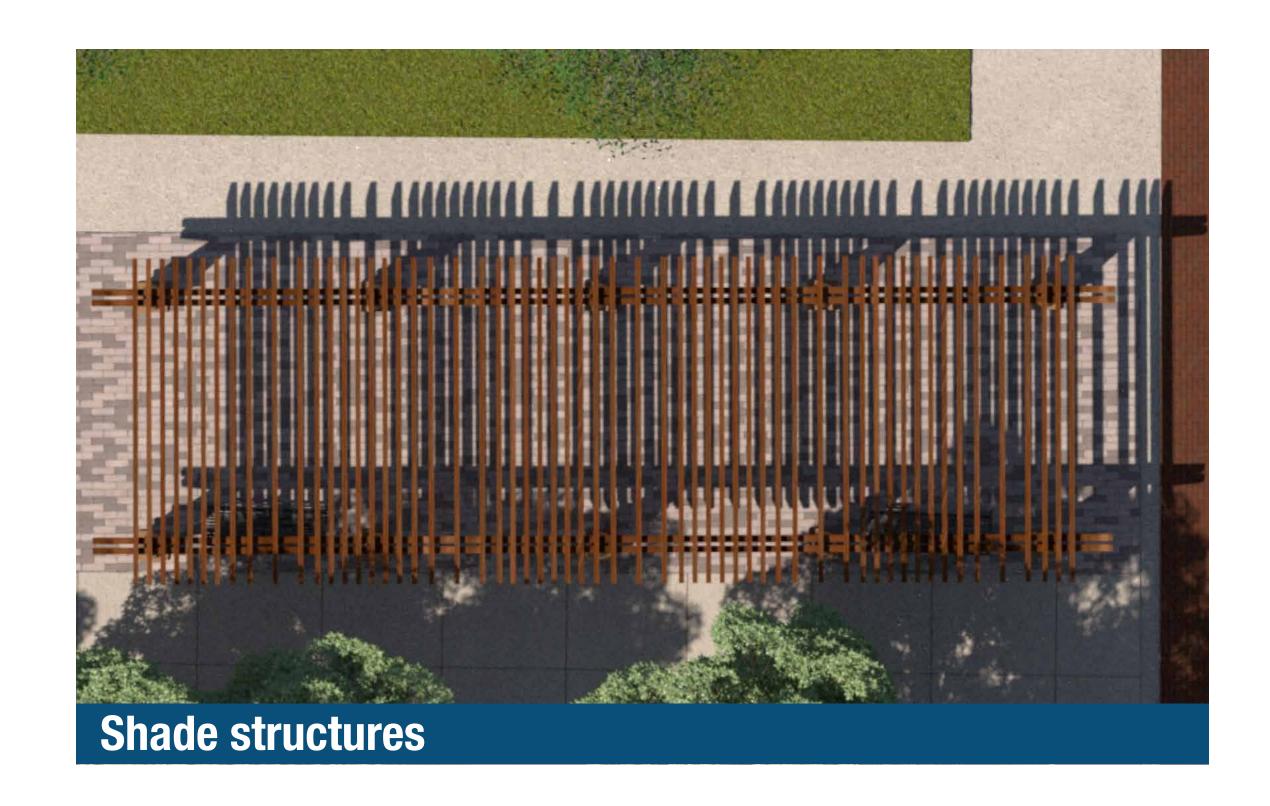

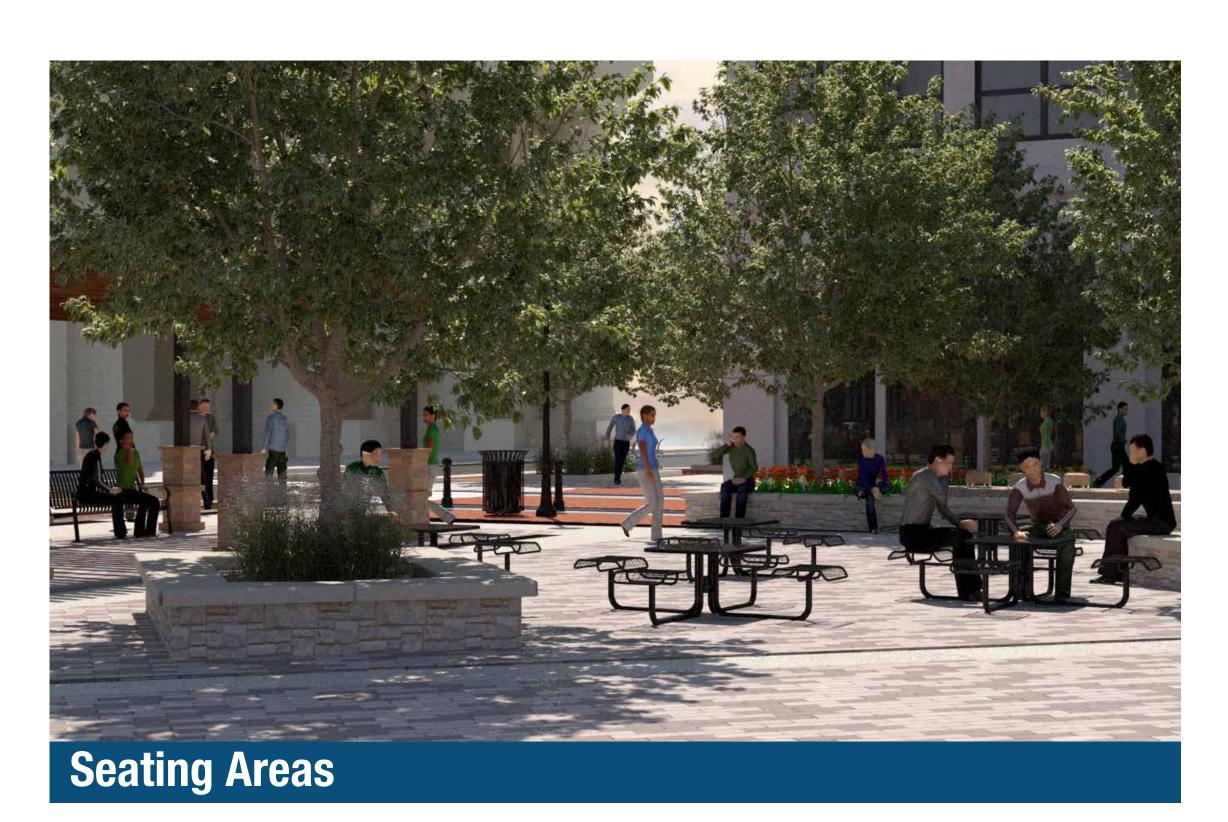

## Concept Design Elements

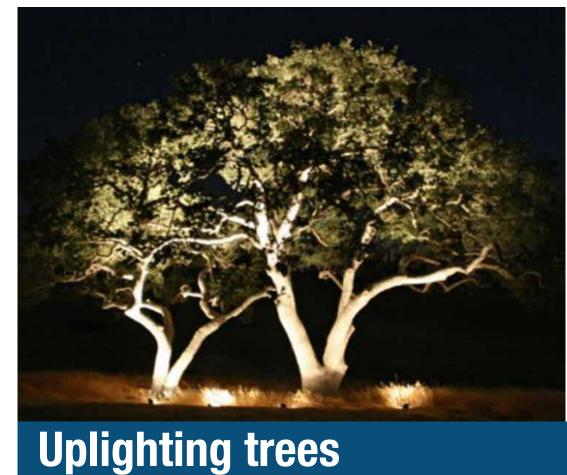

**Metal Bench** 

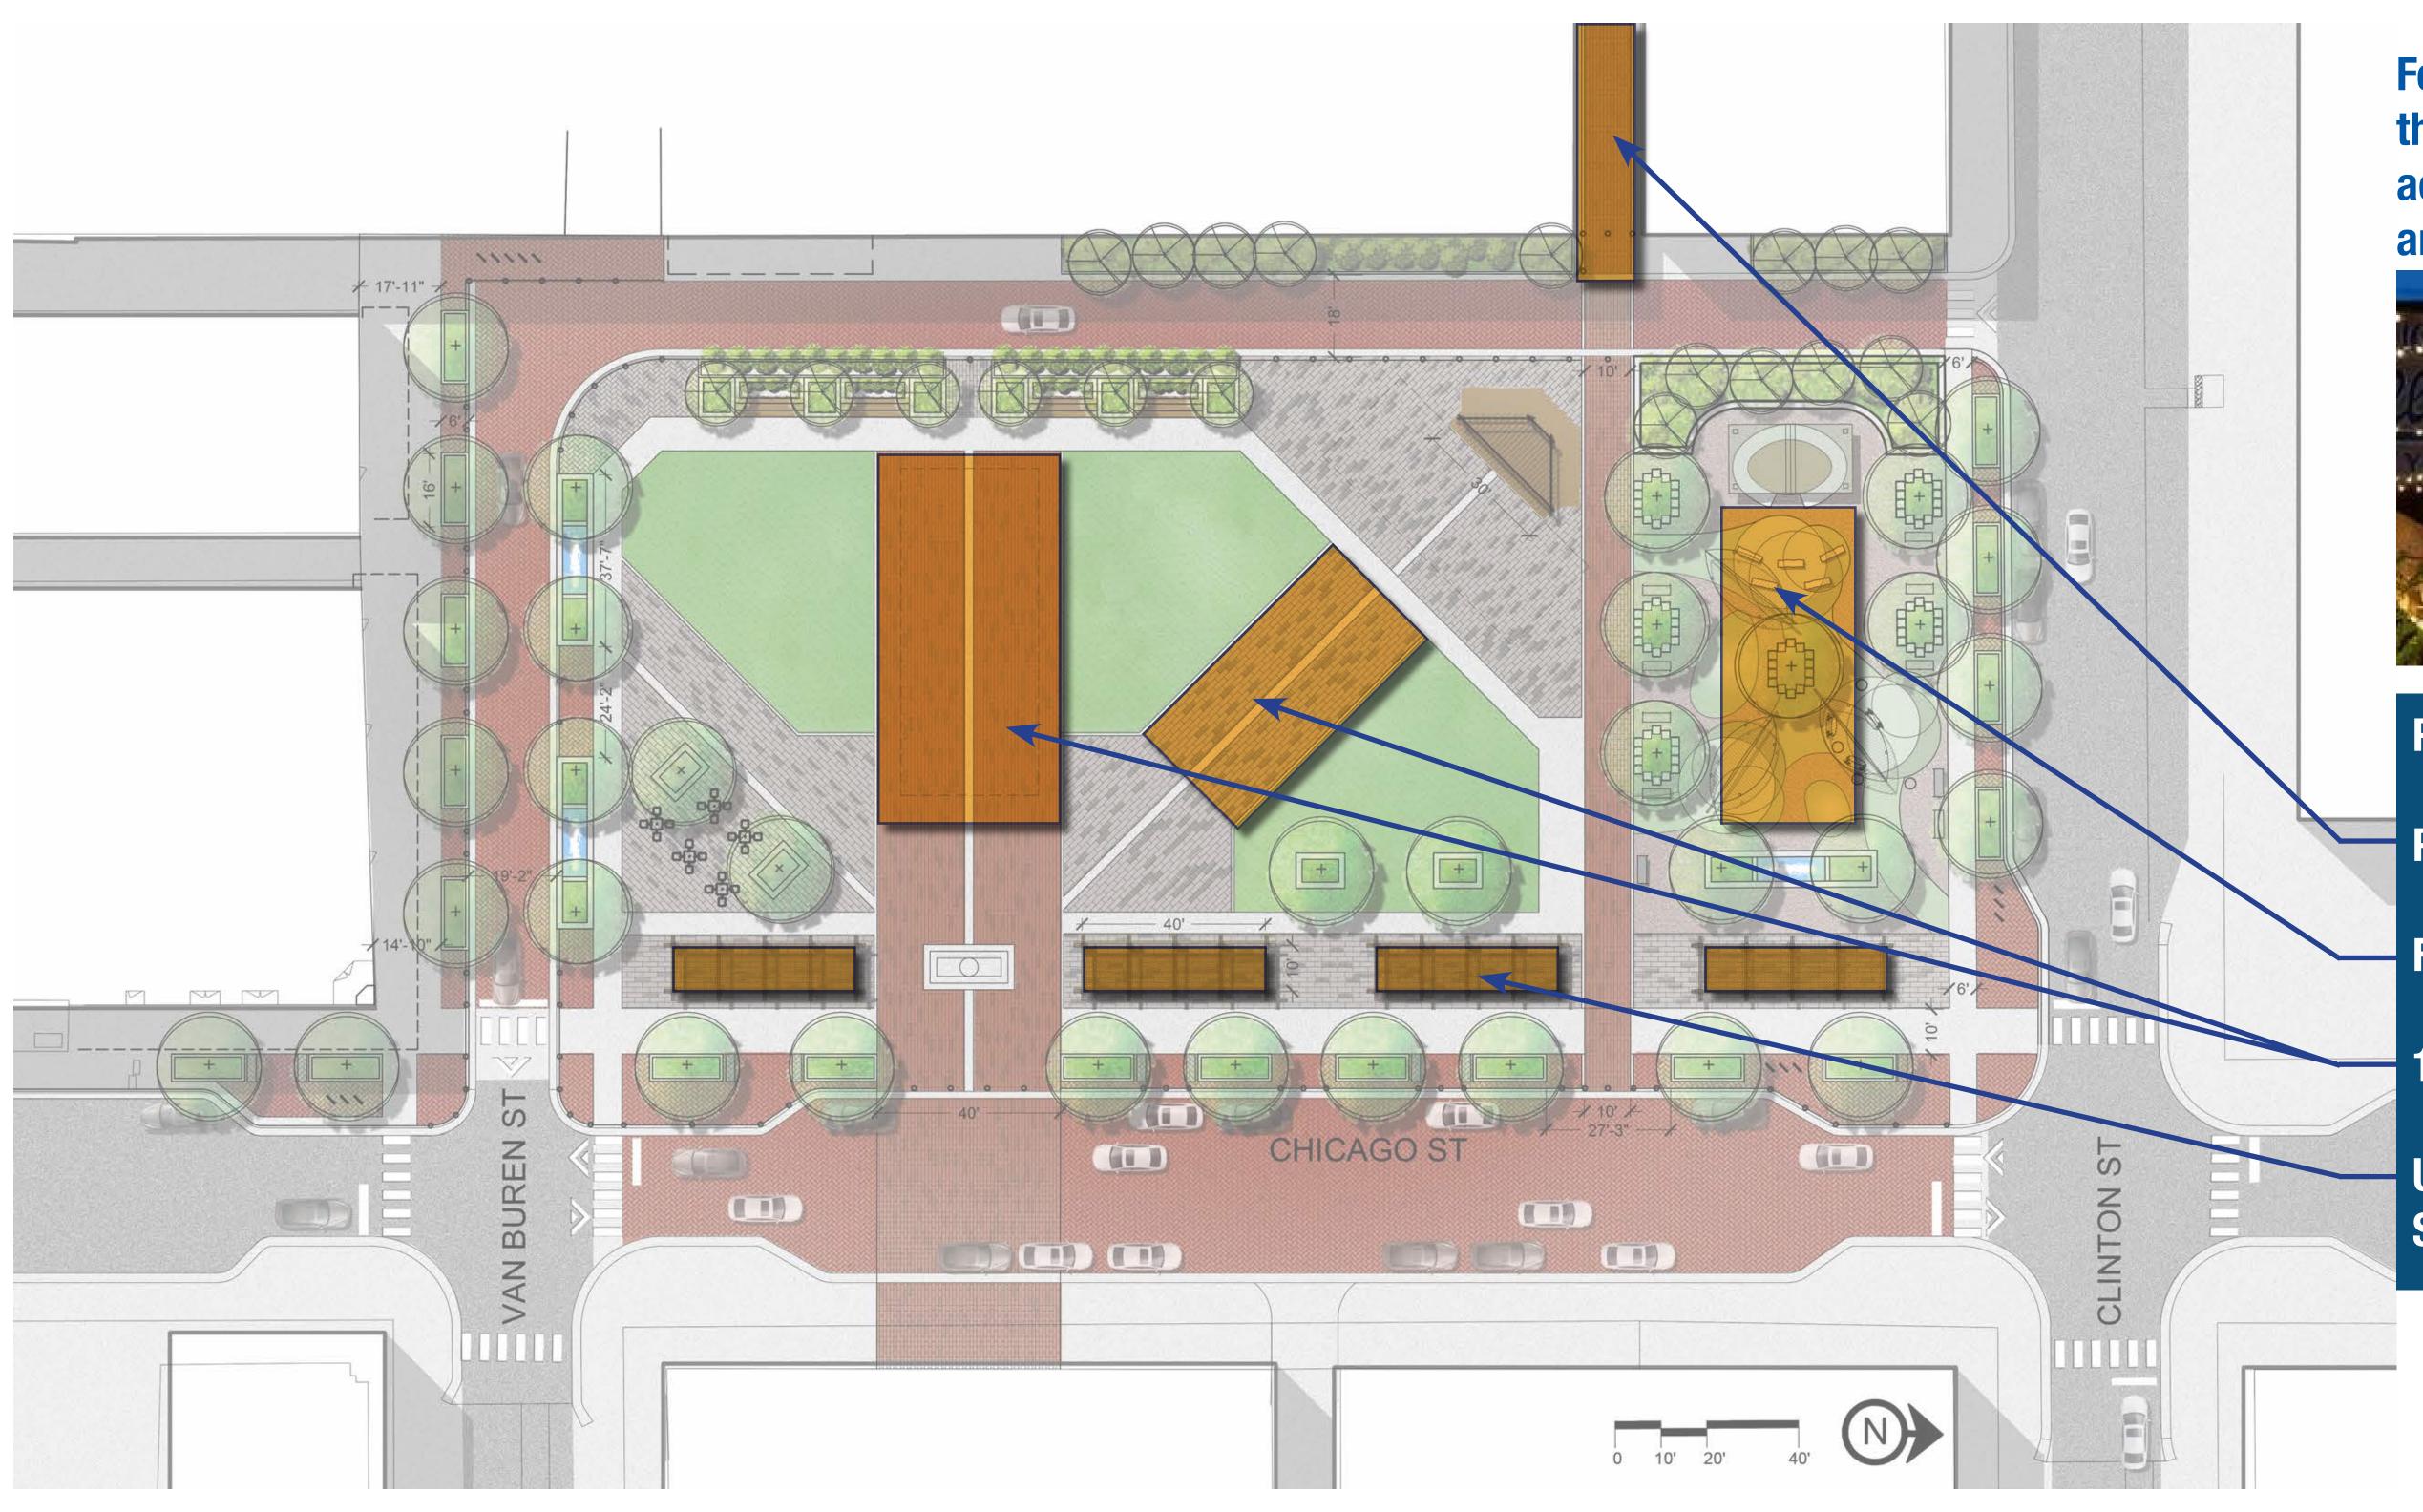

Note: Removable bollards will be used in locations that require maintenance or event access.

## Design Concept - Festoon Lighting

Festoon lighting is attached to cables that are strung from poles. The overhead accent lighting creates a ceiling effect and provides warmth and ambiance.

**Potential locations:** 

**Pedestrian Alley** 

**Family Gathering Area** 

1 or 2 areas within the open space

Under shade structures along Chicago Street

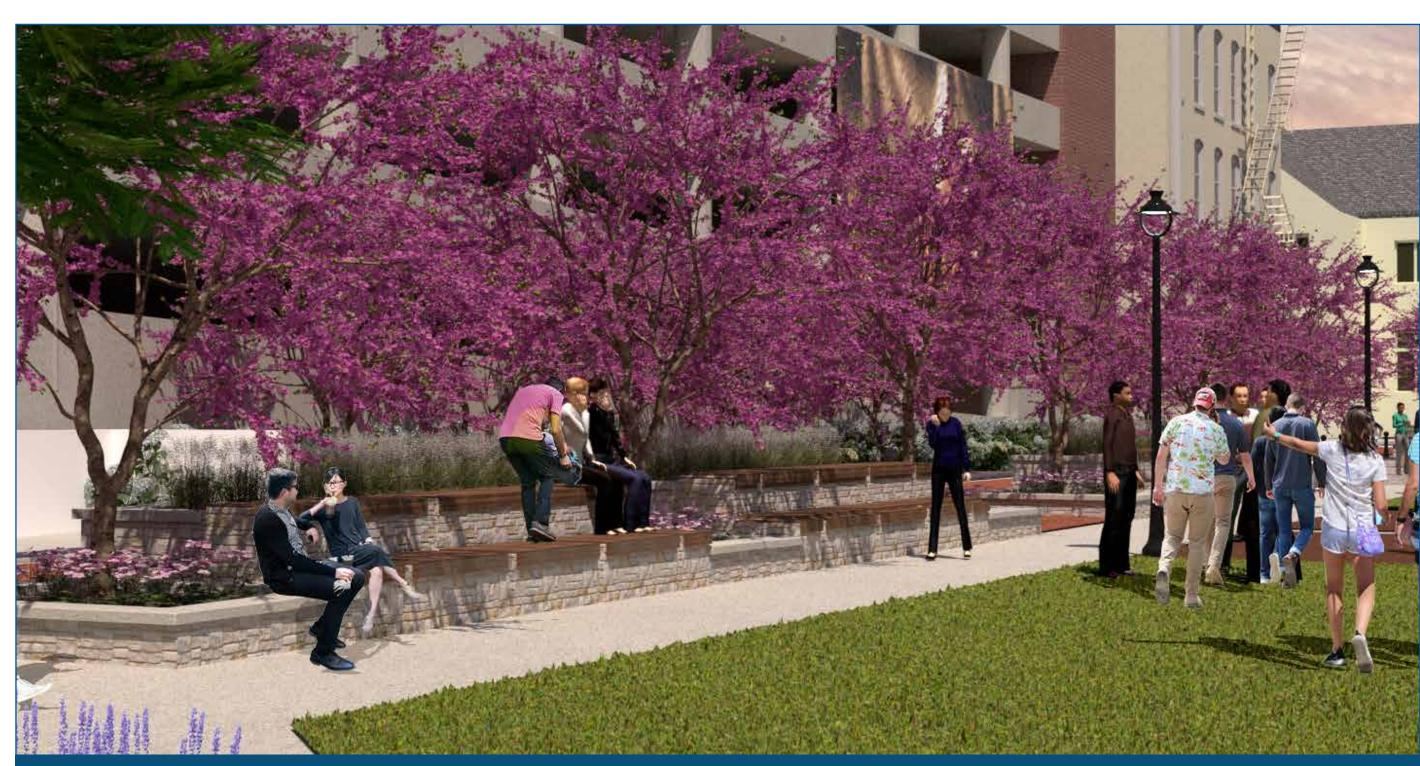

## Concept Design Elements

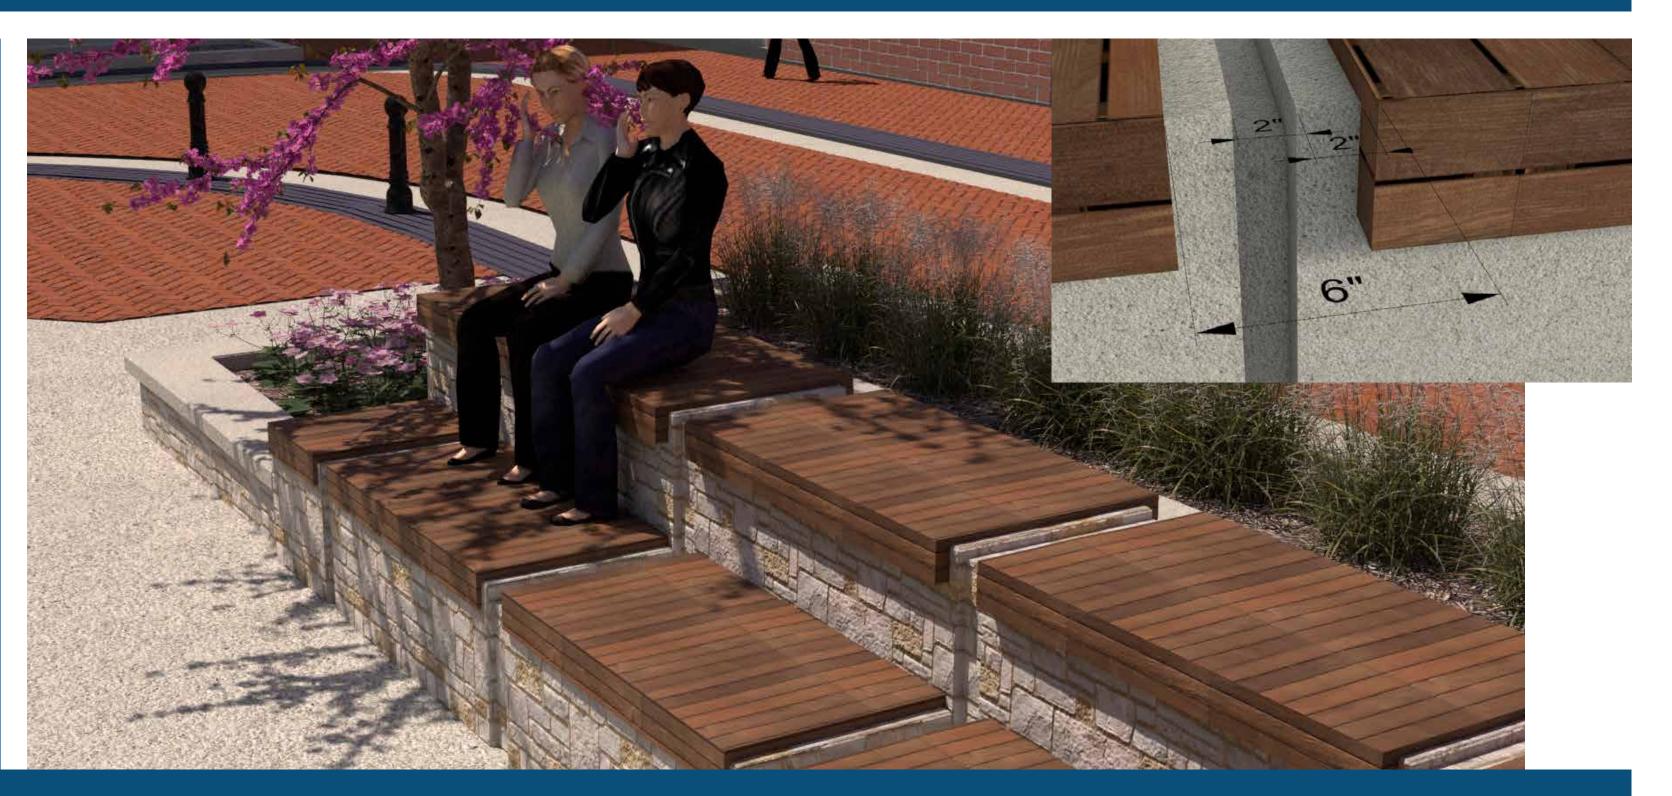

Water feature planters

**Custom tiered seating with planters** 

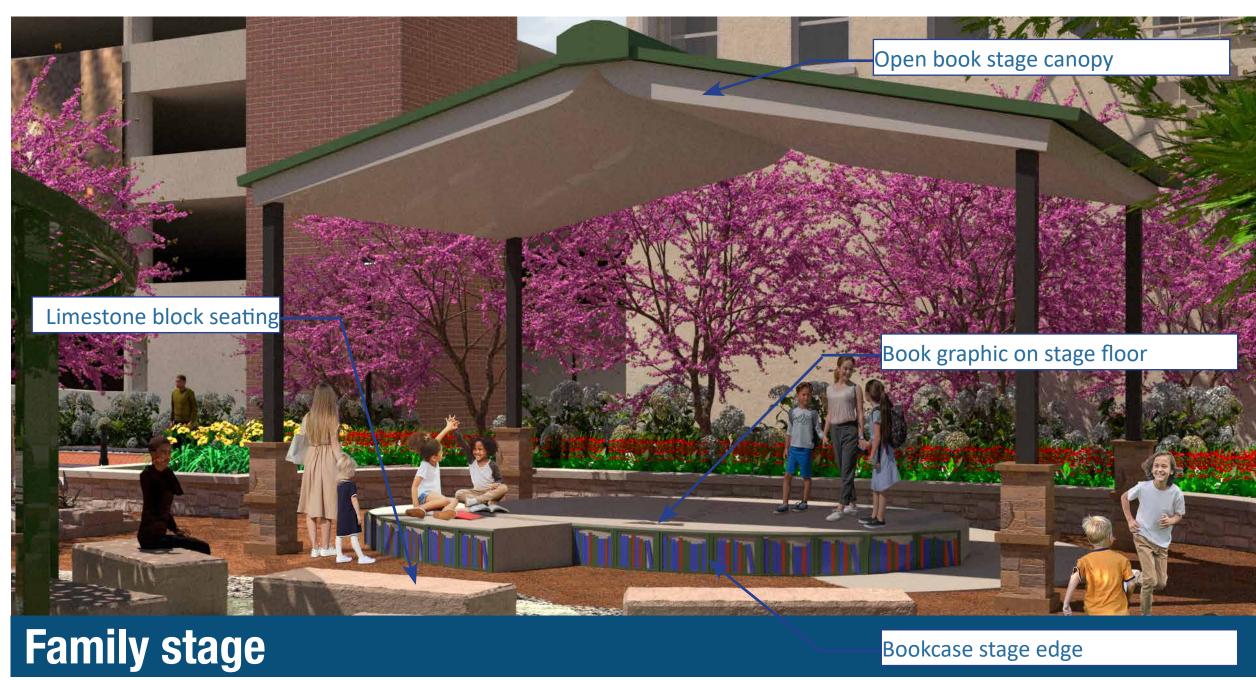

## Family Gathering Area

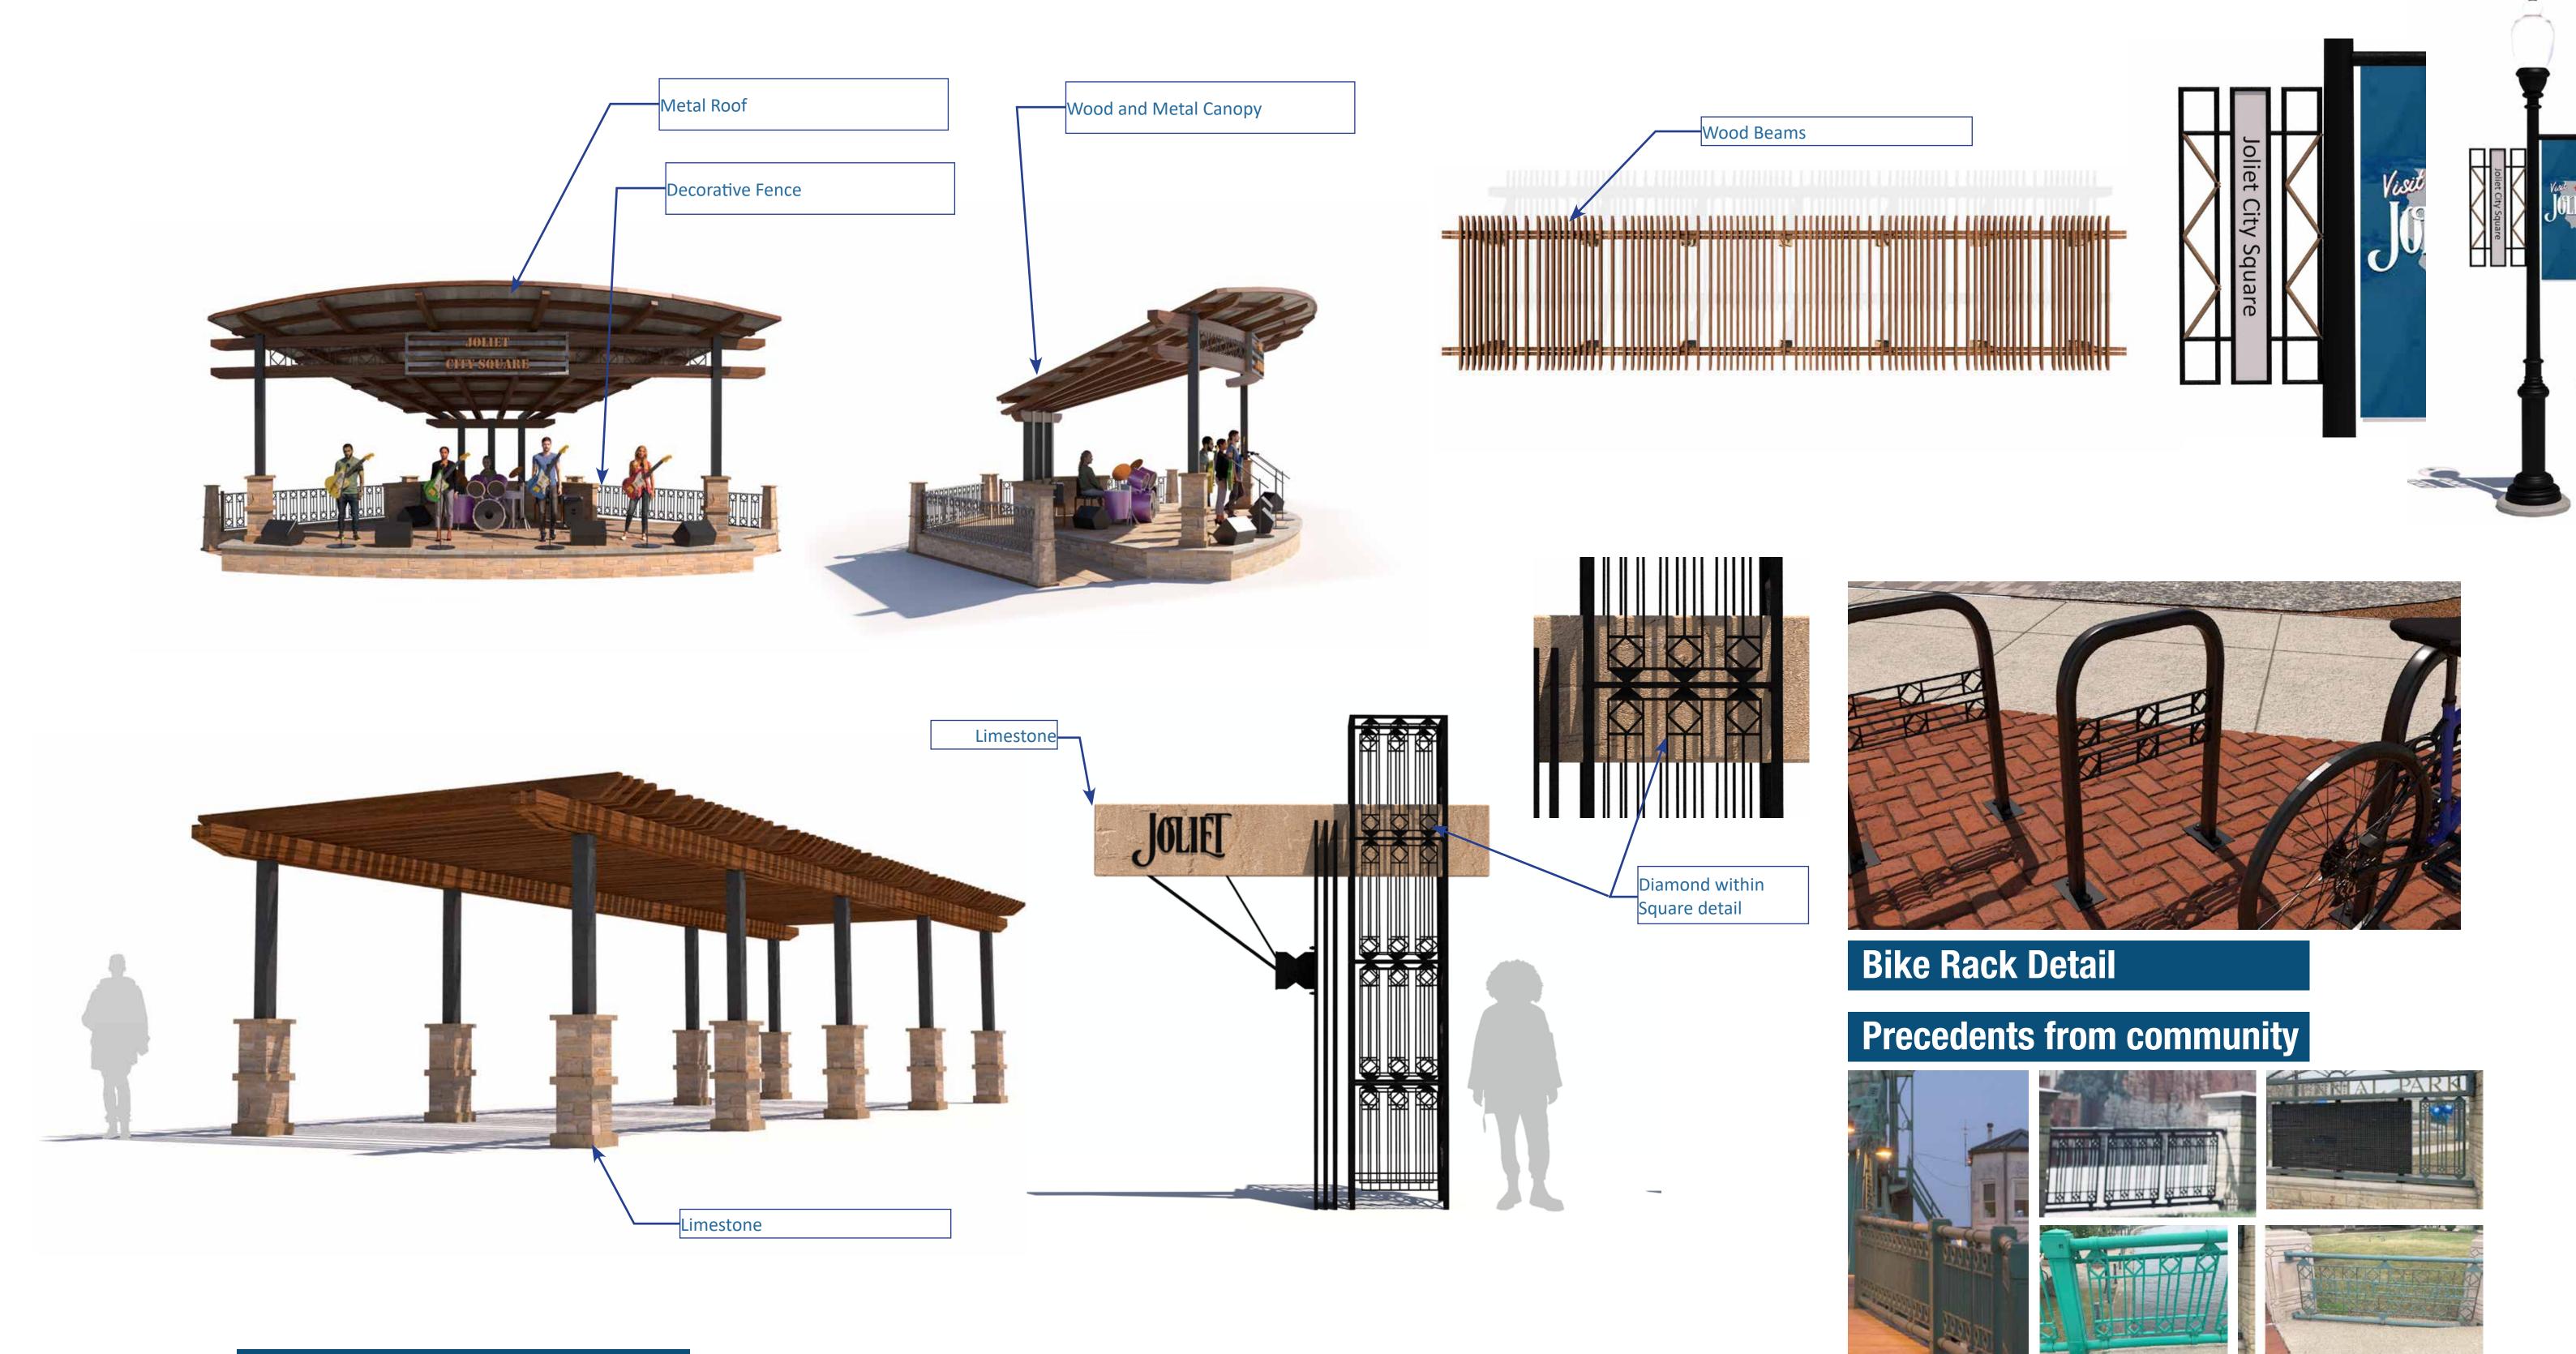

#### **Architectural Elements**

## Landscape plants

## Landscape trees

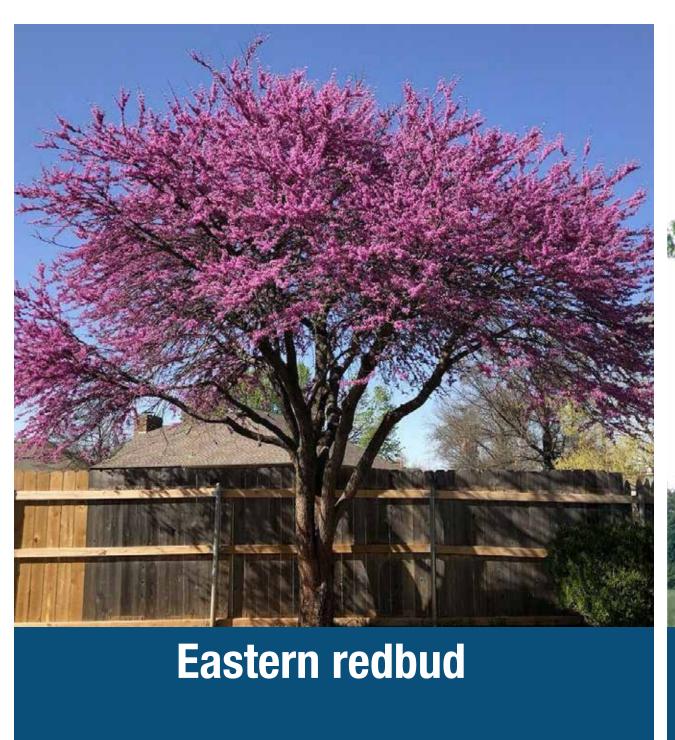

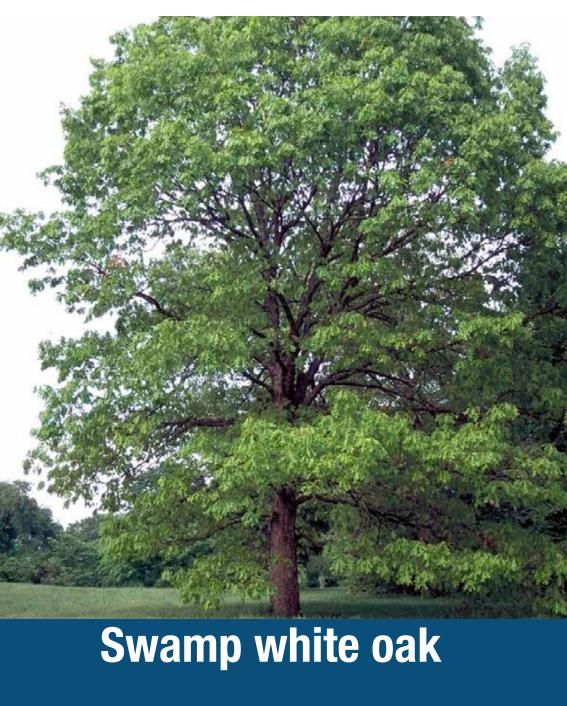

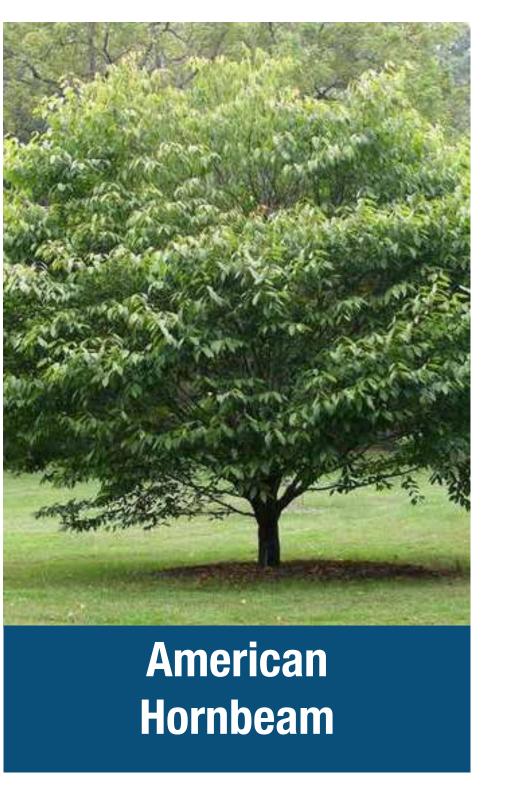

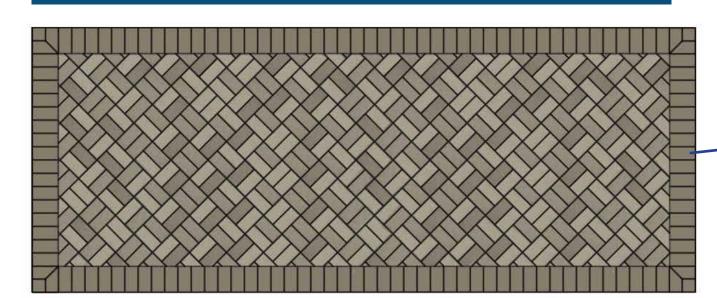

## Clay Brick Paver Options

#### 4x8 red blend

#### 4x8 grey blend

4x8 pavers will be used in higher traffic areas such as the flex streets and areas around the stage

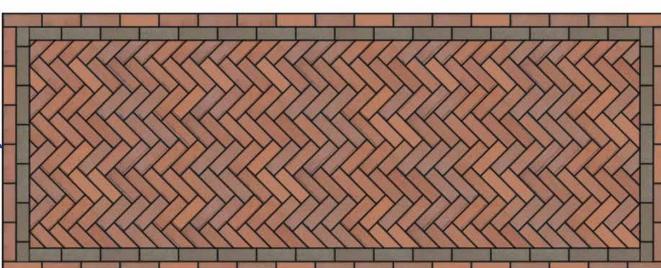

Proposed stamped paver accent in contrasting color

4x12 pavers will be used in pedestrian areas along the streetscape, the interior of the square, and around the shade structures

#### 4x12 red blend

#### 4x12 grey blend

8x8 Accent pavers can be added to both 4x8 and 4x12 pavers in pedestrian areas

## What do you think of the design concepts? We want to hear from you!

- Fill out a comment form and leave it with one of the project representatives
- Place red/green dots on the exhibit boards indicating elements that you like (green) and don't like (red)
- Place post-it notes on boards with comments
- Add comments to the handouts that show the two concept design options and leave it with one of the project representatives
- Email your comments to CitySquare@Joliet.gov

All open house materials are now posted on the project website. The public comment period for comments related to this open house will be open through August 11, 2023.
