

## Memo

---

**File #:** TMP-6790

**Agenda Date:** 12/15/2023

---

**TO:** Beth Beatty, City Manager

**FROM:** Chris Sternal - CIO

**DEPARTMENT:** Information Technology

**SUBJECT:**  
Wireless Point to Point Network Connection

**PURPOSE:**  
A wireless connection between the City Hall datacenter and Fire Station 10 for network redundancy

**FACTS:**

- A wireless point to point connection is required between the City Hall datacenter and Fire Station 10 to ensure we have geographic redundancy for our internet circuit.
- We currently have carrier redundancy for our internet circuits.
- The addition of the wireless connection would allow for a future disaster recovery site to be located at Fire Station 10.
