# JOLIET PUBLIC LIBRARY

## 2015 Budget Justification

Kevin Medows, Library Director

This 2015 Budget Justification of the Joliet Public Library outlines significant budgetary aspects of the library's upcoming 2015 operational budget. A key component of this budget is a levy in the amount of \$5,734,642 (same as 2015). By keeping the library's levy the same amount for several years, we have been forced to make use of reserves (fund balance). An increase in tax revenue will need to be considered for 2016 if the library is to avoid depleting operational and capital improvement reserves.

In the library's budget justification for 2014, I outlined several problems that needed to be addressed in the library's compensation practices. Since that time, I have taken the first steps on the path toward making our compensation practices more consistent and fair across the organization. In 2014, the adjustments to staff salaries to bring them in line with the compensation practices of our peer libraries (with whom the library competes for talented professional staff) fell well short of accomplishing that goal, due primarily to insufficient available funding. Some improvements were made to pay ranges, but it was possible to make only minimal adjustments to staff salaries. The 2015 staff compensation expense lines attempt to at least keep staff compensation at pace with the rising cost of living, as well as to fairly compensate high-performing staff who are making major contributions to the library's operations, thereby enhancing the services we provide to the community. The library will also experience a 6.8% increase in our health insurance costs over 2014. These changes will result in an overall 2.06% increase in the 2015 compensation budget (which includes salaries, FICA, IMRF, and health benefit costs).

In response to what has become a major priority of our community, we are planning major increases to the library's "electronic content" budgets (e-books and e-magazines). E-book expenditures will increase by 48%, and e-magazine expenditures will increase by 70% in 2015. The library must respond to this increased demand in how our library is used, and the trend is likely to continue to require greater and greater appropriations to serve patrons' ever-evolving needs. We welcome the positive results which arise from this improved technology, as it increases the efficiency of the process in getting patrons the reading materials they seek. Our patrons expect the library to be their provider of such materials, as they are proving even less able to personally purchase e-books/e-magazines than they were with print materials.

The increase of 70.7% in our library programming budget (an actual increase of \$14,500) represents:

- 1) anticipated increased expenses due to the rising costs of materials and performers, and
- 2) a bookkeeping change which will more accurately reflect our total library programming expenditures

Previously, the programming expenses that were funded by the Friends of the Joliet Public Library were not reflected in the library's reported operating expenses.

Historically, the library receives some supplemental tax revenue from the Illinois State Library in the form of the Per Capita Grant. This revenue is never certain until appropriated by the General Assembly each year. The amount received in 2014 was \$184,291, but is not guaranteed to be part of our revenue in 2015. Despite this fact, the Per Capita Grant is part of the library's projected revenue for 2015.

The library also strives to acquire other state grants enacted for specific purposes. The library has been awarded a PNG (Project Next Generation) grant in the amount of \$13,881 for 2015. With this grant, we will be offering a special program to a group of student residents in grades 5-12. Students get the opportunity to work with new technology equipment and programs which they would not otherwise be able to access. Often, the students that are involved in the program are from low-income households and do not even own a computer. The program offers access to hardware and software that inspire creativity while teaching the students skills that will assist them in their post-graduation lives. Audio engineering, physical and digital creation, multi-media recording and A/V editing are some of the topics that will be explored.

The library's highest-priority non-operating expenditures will be for improvements and upgrades to information technology infrastructure and facilities. The greatest challenge in this project will be the process of prioritization itself.

The library continues to upgrade what was previously a severely outdated technology infrastructure. Strides have been made in upgrading public computers and some components of the network. Much work remains, though, including the upgrading of staff machines and network switches. We continue to move slowly away from the "cliff's edge" of technology reliability to which we ventured dangerously close in the recent past. Even so, this year we did experience a few major technology system breakdowns which resulted from continuing to use outdated infrastructure.

The Main Library security camera system improvements originally slated for 2014 required a great deal of time to be devoted to the exploratory phase, as we learned about the range of options to consider in serving our core surveillance needs. We also postponed the bidding process to wait for the results of pending legislation which could have influenced the type of bidding process we would use. The security camera system in the Main Library is now a top priority of 2015. The Main Library currently has a single 16-camera system operating at about 65% percent of normal functionality, due to a handful of cameras which are defective or have poor image quality. We are in need of a fully-functional, high-quality 32-camera system.

There exists a great need to reconfigure much of the library's physical space to improve services, staff productivity, and managerial effectiveness. Both the Main and Black Road libraries present their own challenges with regard to the use of space. The library has a dearth of enclosed offices, the lack of which presents a major obstacle to good management. We have

been looking closely at our service desks and evaluating how improved configurations can enhance not only services, but staff effectiveness as well. It is essential that we begin making such improvements over the next one to three years.

Last, but not least, the Main and Black Road libraries are in need of increased upkeep and, in some cases, substantial improvements. An appropriation of \$350,000 in the Capital Expenditures line will help us move in the right direction, with major expenditures to be reviewed, prioritized, planned, and then implemented only with library board approval. More costly projects will need to be postponed until sufficient funds are available.

December 4, 2014

**TO:** Mayor and City Council

**FROM:** James D. Hock, City Manager

**SUBJECT:** Ordinances for the Levy and Assessment of Taxes for the Fiscal Year Beginning January 1, 2014 and Ending December 31, 2014, in and for the 1994 Joliet Special Service Area Number One (Joliet Commons Shopping Center Project), the 1996 Joliet Special Service Area Number Fourteen (Joliet City Center), and 2009 Joliet Special Service Area Number Seven (Park Hill Subdivision).

**BACKGROUND:**

On February 1, 1994 the Mayor and City Council established a special service area to collect a special service area (SSA) tax on Lots 1, 3 and 7 of the Joliet Commons Shopping Center Project and approved an agreement between the developer and the City. The City agreed to levy the special service area tax and then remit the tax proceeds to the developer as part of an economic development incentive package. The added tax is paid by the tenants renting space from the owner of those lots. Those lots have been re-subdivided since the City's approval of the original re-subdivision. Lot 2 on which the Target store is located is not subject to the special service area tax. Based on data provided by the owner of the shopping center, the amount to be levied is \$49,850.

In 1996, the Mayor and City Council established the Special Service Area Number Fourteen to collect a special service area tax on the properties located within the Joliet City Center. In 2006, the special service area was extended for a period of 10 years at the request of the Joliet City Center Partnership and area businesses. The funds generated from this SSA will continue to be used to market and encourage business expansion and retention in the downtown area. The SSA includes the area bordered on the west by the Des Plaines River, and the elevated railroad tracks to the north, south, and east. The existing maximum tax rate of \$9.50 per \$1,000.00 of Equalized Assessed Value (EAV) was maintained for the 10 year extension. The amount to be levied this year is \$440,100, which is consistent with 2013.

In 2009, the Mayor and City Council established Special Service Area No. 7 Park Hill Subdivision. The funds generated from this SSA will be used to manage and maintain the storm water detention pond located on Lot 60 in Park Hill Subdivision. The SSA includes the area bordered by Longwood on the west, Parkwood on the east, Beechwood on the north and Basswood on the South. This tax will be levied on an annual basis in an amount sufficient to properly manage and maintain the detention pond. The amount to be levied this year is \$11,540.

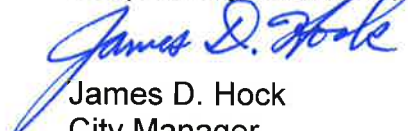

**CONCLUSION:**

Under Illinois law the City must adopt a tax levy ordinance for a special service area and file it with the County Clerk before the last Tuesday in December. The attached ordinances levy \$49,850 on the applicable lots of the Joliet Commons Shopping Center Project (1994 Special Service Area Number One), \$440,100 for the Joliet City Center (1996 Special Service Area Number Fourteen), and \$11,540 on the applicable properties in the Park Hill Subdivision (2009 Special Service Area Number Seven).

**RECOMMENDATION:**

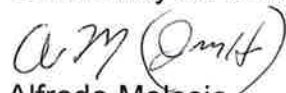

The Administration recommends that the attached Ordinances be adopted.

Respectfully submitted,
